Precautions

To avoid injury or property damage to users or others, please read and follow the precautions below carefully.

1. Read the operating instructions: Before operating the machine, you must read and fully understand all operating instructions.

2. Keep this manual for future reference: After reading, store this manual in a safe place for later use.

3. Follow all warnings and instructions: All warnings and instructions on the product and in the manual must be strictly observed.

4. Use only recommended accessories: Do not use accessories not approved by the manufacturer. Using unsuitable accessories may cause accidents.

5. Do not disassemble or modify the product: Disassembling, modifying, cutting the power cord, or connecting it to other power sources is strictly prohibited. Such actions may cause smoke, fire, electric shock, or malfunction.

6. Do not insert foreign objects into the machine: Metal objects (coins, tools, etc.) or flammable materials entering the machine may cause overheating, fire, electric shock, or short-circuit malfunctions.

7. In case of fault or abnormality: If the machine emits smoke, unusual odor, or shows other abnormal signs, stop using it immediately, turn off the power, and contact your dealer to avoid fire or electric shock.

8. Keep away from heat sources: Do not install the machine in direct sunlight or in high-temperature locations.

9. Use the correct power supply: This machine is designed for use with a 12V DC negative-ground battery system.

10. Safety check after repair: Do not attempt to repair the machine yourself. After any repair, have a qualified technician perform a safety check to ensure normal operation.

11. Do not operate while driving: Operating the machine while driving distracts you from the road and may cause a traffic accident. Always park the vehicle in a safe location before operation.

12. When washing the car: Do not expose the machine or its accessories to water or allow them to become excessively wet.

13. When parking: Parking the car under direct sunlight may raise the internal temperature. Before turning on the machine, allow it to cool down first.
